

ALBASA 2023: seminar and book fair

Choosing and selecting books (reading materials) for our students at the book fair: Finding the right book at the right level with good interest cannot be understated when building a student's enjoyment of reading to improve their literacy skills. Thank you, UGS faculty, headed by Maam Hannah Adellit Rodriguez, UGS principal, for helping us pick up the right books for our pupils and students of the University of Bohol.
